

Aluminium Hinged Door Screen Commercial

Features

Robust, elegant hinged door screen, which face fits inside or outside, to existing frame or to the wall outside the reveal. If your door opens out the screen will be fitted on the inside and visa versa.

Choice of white or brown powder coated aluminium, with grey insect mesh as standard.

Suitable for all domestic, office, commercial and most industrial uses – comes with a single midbar and a kick plate at the bottom to protect the mesh.

A push plate can be fitted in the middle of the door to make it more robust for busy commercial use. Supplied with a spring closer.

Benefits

Easy access through the doorway.

Available as Made-to-measure up to a maximum size of 1275mm wide x 2300mm high (supplied ready for you to fit) or a DIY Kit to make a screen up to a maximum size 1040mm wide x 2190mm high (for you to make and fit).

Commercial Door Screen

Commercial Door Screen with additional push plate

Measuring

Measure the width of the aperture plus any bevelled edges on the door frame. Add 10mm of flat surface on each side (for the screen frame to rest against).

Measure the height of the aperture plus any bevelled edges at the top of the door frame. Add 10mm of flat surface at the top of the door (for the screen frame to rest against).

Made-to-measure – we will make to the exact size you tell us.

DIY Kit – one size available.

Width: Aperture (and bevelled edges) + 20mm of flat surface = ____ mm
Height: Aperture (and bevelled edge) + 10mm of flat surface = ____ mm

Additionally

Ensure you have an additional 17mm of flat surface for the hinges and 13mm for the magnetic catch – do not include these amounts in the manufacturing measurements you give us.

If your door handle extends more than 10mm beyond the flat surface you will need to build a sub-frame to bring the screen away from the door handle when it is closed.

We provide two handles with each door screen, one for each side. The handles extend 22mm from the face of the door screen.

An industrial heavy duty door screen is also available – please contact us for further details.
